How to scan the Qr code of presence?

Employee attendance management is a real headache for companies in Africa.

Thanks to the presence QR code AZ-COMPANIES offers a very simple way to solve this problem.
How to scan the QR code Presence?

1. I am an employee of the company;
2. I am on company premises;
3. I have a QR code scanning app (default camera does this for IPhone);
4. I have activated my location
    1. For IPhone:
        1. Go to settings;
        2. Search for location;
        3. Click on Location Services;
        4. Activate the Location Service;
        5. Scroll through the list of applications at the bottom;
        6. Choose Safari which is the default browser;
        7. Enable the location option when the application is in use.
    2. For Android:
        1. Go to Settings;
        2. Click on Location;
        3. Activate the use of my Position;
        4. Or click the position icon in the application shortcuts.
5. I scan the QR code with my app;
6. I click on the redirect link;
7. I confirm the location service authorization (for IPhone);
8. The platform will take the scanning time automatically and display it for a few seconds
9. I do the same on arrival and departure from the company.

Thanks !!!
